Seeking Chair of AMC Marketing Committee

Are you excited about marketing? Are you interested in a volunteer position that would enhance your marketing and advertising experience and skills with the most respected outdoor sports association in Arizona?

Your time has arrived. The Arizona Mountaineering Club seeks an individual to head up a new Marketing Committee.

Use your talents and creativity in an exciting opportunity available now to begin a new chapter for AMC in its 50th year and refresh its image and brand, bringing it to a new level.

Responsibilities of the position include:

1. Proposing a marketing plan.
2. Creating a strategy for advertising, promotion, publicity, public relation and social media.
3. Revamping AMC's brand.
4. Recruiting vendors to create a new logo.
5. Recruiting additional members to the committee.

Please send a message of interest, résumé and questions to Matt Kalina, Director of the Board, AMC, at MattKalina@yahoo.com.

MANNY RANGEL & LAUREL ARNDT THE DOLOMITES

Manny, Laurel and Greg Novak (Cottonwood resident) on top of Cinque Torre after climbing a multipitch route, Via Delle Guide, IV (5.6ish), 100m of trad climbing with bolted belays. That's a good thing because the protection is tricky or non-existent.

"I have climbed one of the top places in my bucket list: Italian Dolomites. I have been climbing over thirty years, much of it here. I have also climbed in Mexico, Thailand, France, Spain, Canada, and many areas in the USA. My favorite climbing is in Spain where I spend a lot of time in Barcelona and the surrounding areas. I am currently working on a new route, ground up and hand-drilled, on Leviathan Dome. I also have another quartzite area that has caught my eye and rope, Christopher Creek Canyon. I have written one guidebook, Isolation Canyon, and I am working on a guide to Central Arizona."

AMC Anchors School - Spring 2014

The AMC Climbing Anchors School teaches participants how to set climbing anchors for top-roping. This course is the logical next step for AMC Basic Climbing School graduates.

Class curriculum:

Tuesday: Learn anchor components, anchor types, knots and hitches.

Thursday: Learn anchor system characteristics and construction.

Saturday: Gain experience setting anchors by practicing “hands-on” scenarios under instructor supervision.

Sunday: Apply newly learned skills setting real anchors on an optional climbing day. This session is a climbing outing where students set the anchors under instructor supervision and then spend the day climbing.

Class schedule:

Apr. 8	Tuesday	6:00 pm–9:30 pm	* Scottsdale Cactus Park
Apr. 10	Thursday	6:00 pm–9:30 pm	Scottsdale Cactus Park
Apr. 12	Saturday	8:00 am–4:00 pm	Sullivan’s Canyon, Chino Valley
Apr. 13	Sunday	7:00 am–5:00 pm	Promised Land, Chino Valley (Weather permitting)

* Cactus Park is located on the northeast corner of Cactus Rd. and Scottsdale Rd in Scottsdale.

Experience required: AMC Basic School graduate or equivalent, which must include knowledge of how to belay, rappel, prusik, tie a figure-8-on-a-bight and figure-8-on-a-follow-through, and make a girth hitch.

Cost: \$95 plus membership if not already a member (\$30 for an individual and \$35 for a family). Membership is good through Dec., 2014. Register by the Paypal link on the website (<http://www.amcaz.org/anchorsRegistration.asp>) or if you need to send a check you can contact Nancy Lust amcanchorsschool@gmail.com for the address. No credit cards accepted. The registration fee is fully refundable if you cancel. Contact Nancy Lust by email: amcanchorsschool@gmail.com for more info. The number of students will be limited to 36.

Equipment required for the class:

- 2 non-locking “D” or oval carabiners (at least 2, bring more if you have them)
- 3 locking carabiners (at least 3, one of which should be a parabiner)
- 1 rappel/belay device (Trango Jaws, Black Diamond ATC, Trango Pyramid, Figure-8, etc.)
- 1 climbing harness
- 1 ea 4’, 6’, 10’ 6mm prusiks (untied length)
- 2 ea 5’, 10’, 20’ slings (1” tubular webbing, untied length, AKA runners)
- 1 or 2 personal anchor slings (commercial daisy chains or 4’ sewn Spectra runners or equivalent)
- 1 helmet—required for Saturday and Sunday sessions, helmets are available if you do not have one.

(The slings and harness are the only additional equipment needed over the Basic School requirements)

This class is designed to teach you how to set top-rope anchors. In order to become independent and set your own anchors, you should start acquiring anchor gear. These purchases will be limited by how much money you want/have to spend and how much interest you have in climbing independently. The following gear is not required for Anchors School, but if you have some, you will be able to practice setting it in class. All of the gear recommended below can be used for Lead School, and none of it will be wasted if you intend to set your own anchors. All gear should be marked prior to bringing it to class to prevent confusion between it and other people’s gear. If you don’t know how to mark gear, check with an instructor before doing so to avoid weakening equipment due to improper marking.

Other gear you may want to bring:

- Any pro you may have (hexes, nuts, camming devices, Tri-cams, etc.)
- Extra biners (regular D’s, ovals, and lockers—stay away from specialty biners at this time)
- Extra slings (perhaps four 5’, two 15’ slings, untied lengths)

Queen Victoria

1. Queen Victoria multi-pitch, 5.7 route, is the rock formation on the right. This is a very popular climb in Sedona and we were lucky to have it all to ourselves.
2. Beautiful scenery on the 30 minute hike in with great vistas of the surrounding rock.
3. Pitch 1- around 70ft of climbing, the crack starts in more of a dihedral and then quickly turns into a prominent chimney. We climbed into a fixed belay station with two bolts. David A.Sampson led and watches Bill Fallon climb up the first pitch.
4. Pitch 2- Traverse left to the base of two big broken blocks of limestone that form an off-width crack between the blocks. This proved to be a challenge and everyone had their own technique for making it up and over this spot. The third and last pitch (no picture) goes up a chopped up and broken chimney with an awkward (for me, anyway) pull over a buldge that put you at a little fin inside of the chimney.
5. We had our 4-legged companion, Faith, to help us with our trust in making some of the moves.

Happiness is climbing with AMC! Can't wait to go again- sign me up!
